NEW SURGEON IN CHINLE

DR. HEATH LEAVING

Dr. Boe Takes a Bow

Dr. Brian Bow started work at Chinle July 24th as a new general surgeon, and the current consensus is a cautious optimism that he might work out. "He *seems* easy-going" said Dr. Heath "but only time will tell." Perlinda's assessment was "I don't know, he *might* be trainable." Another new surgeon is expected in early August, at which time Dr. Yeager (formerly Dr. Poellot) will be off to Claremore Oklahoma. While some have expressed concern over having a budding thoracic surgeon come (Dr. Weinstein), Ms Finlay pointed out that there is no finer place to break them in, than in Chinle.

Congratulations to Dr. Heath for passing her oral exam and obtaining a California medical license.

Bio-med has a new employee who has other hospital department members very excited. "He actually seems to know what he's talking about!" enthused one person. "Just think, someone you might be able to *trust* with your equipment!" Kinard's feelings are unknown at this time, though the new technician commented that it was 10 am and he hadn't seen his comrade yet. Dr. Heath attempted a polite warning in the interest of fairness.

Stock Market

The starving dogs are back in unparalleled numbers. Road destruction on Route 7 appears to be moving at an invisible pace to the frustration of all the downtowners. "I don't know *what* they're doing" said Dr. Heath "but it won't stop me from moving. I'm *outta* here!"

JCAH reportedly was very upset that hospital employees were not checked out on equipment. Dr. Heath's succinct reply was "screw 'em". Since she does not plan to be in Chinle when they return her interest in compliance with their petty rules has reached an all time low.

Locals expressed severe dismay today upon learning that Mr. Dick had actually washed ALL of his dishes. "It's snow for sure" said Juanita, "I don't care if it *is* the middle of summer."

It's Back to School for Dr. Heath

Chinle loses yet another medical staff member this September. Dr. Heath has announced her decision to go back to graduate school in Concord California for a doctorate in psychology. "I'm very excited" she confided, "I love school and this is a small program with some unique courses." Mrs. Fulton did not appear sorry at the announcement.

Excitement is running high as the Norwest Bank is actually nearing completion. "I never thought I'd actually see it" said one resident.

Ms. Tiffany Coleman was presented the "Midwife of the Year" award at the August medical staff meeting. Dr. Boe evinced concern over the gagging noises coming from Dr. Heath during the presentation.

Babe is an amusing fairytale of a talking pig and the farm he lives on. The farmer himself, though taciturn, is a canny fellow and an intriguing character. I give it ***1/2.
