**FIRE IN PHS HOUSING**

**BAGLEY STARTS NEW SUPPORT GROUP**

---

## Brush Causes Fire

**D**r. Bagley was innocently burning tumbleweed and brush in his yard in preparation for moving, when the wind blew the fire into his neighbor's yards. Dr. Bagley was quoted as saying "Damn those elements..." Dr. Milheim and Tiffany however, were not amused as their homes burned.

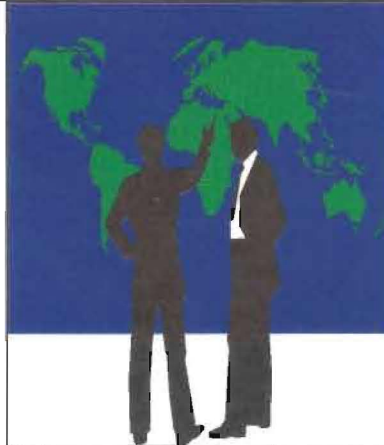

Dr. Milheim, in an unparalleled act of cowardice, hid Dr. Bagley's EPMS in an envelope on his desk. Not only was the evaluation two months overdue, but no mid-year assessment had ever been performed. Dr. Bagley was less than amused with his appraisal and is pursuing his grievance.

Carol Bragg is reported to be extremely happy in her new relationship with the pilot from Page. Cliff commented "Yeah, they're really burning up the road... I heard they had to lay new asphalt between Chinle and Page".

The Window Rock cinema, after being open for less than a month, is again closed. There is no word as to either why it closed, or whether it will ever reopen.

*Bob quote:* "Makes sense to me..."

*Your only false news source*

## Stock Market Report

The mild warm weather has caused an explosion in the Chinle flea market size, though salespeople still throng the hospital, evading security with practiced ease. Frequent rain showers have caused not only a good turnout in tulips, but a resurgence in green grass. Dr. Heath was proud to point out that almost all of her front yard actually sports grass now.

Gloria Fulton is considering continuing her education by going to CRNA school. She is writing to various programs for information and talking of moving this fall to Flagstaff.

Al and Karen Hawkinson, after having their trailer robbed three times in two weeks has moved to Zuni. They do not plan to ever return.

## C.A.A.

## FOUNDED

**D**r. Grant Bagley announced today the formation of C.A.A. (Chinle Alumni Anonymous) for those trying to recuperate from the personality damage sustained in Chinle. "I'm sure recovery is possible" he stated assertively. He did admit, however, that exposure time could be a factor whether recovery could be complete.

Dr. Heath will be touring Belize (once known as British Honduras) this month. She has been studying the culture in order to appreciate their Mayan ruins. A full report with photographs will be in next month's issue of the Res Rocket.

*Happy Easter!*

Ms. Finlay announced upon leaving for North Carolina that there would be "No garage sales" during her absence. Cliff Dick and Juanita Preston both expressed their disappointment. Ms. Finlay is planning to move there permanently in September.
