CHINLE BURGLAR STRIKES AGAIN! DR. ROSENBAUM TO WORK IN OR

Faye Finlay Vows Revenge

Last night a burglar struck between midnight and 6 am, taking Mr. Dick's 6 month old car battery and dead radio. He also made off with two bags of dog food that Ms. Finlay had paid for which were sitting in the front seat. Although Dr. Bagley donated enough food for Ms. Finlay's 3 dogs, she vowed revenge. Although the Navaho police took the report they had little hope. Mr. Dick later did find his battery had been dropped in the school yard (and a cell broken) but Ms. Finlay's dog food was no where to be seen.

Cliff Dick announced today his new plan for improving the quality of care at Chinle. "Every time Petrick comes around I'm gonna talk about how WONDERFUL Shiprock is." So far the plan does not appear to be working although the Adams have been willing to participate enthusiastically. Several others also joined in after a five hour laparoscopic Cholecystectomy during which Dr. Petrick repeatedly said "Do you know where we are...I don't" and "Is THAT the gallbladder?" The OR staff was not amused. Dr. Poellot however was not concerned.

Stock Market Report

Cows have been lurking around the hay wagons but have so far had little luck. Rugs have been in great supply although the Catholic Hall craft sale in early December is expected to divert some of the local trade.

OR 1 was closed for two days this week for repairs to the suction system. Apparently it was tested weak last May but nothing was done at that time. Investigation revealed that the system was supposed to have been cleaned every year. Somehow, no one was surprised to learn it had never ever been done. After a brief altercation between Biomed and Maintenance as to responsibility, the repairs were accomplished jointly.

Yei bi Chei Season

The winter set in this year again and the Yei-Bi-Cheis are out on their rounds. Donations have been quite varied, from peanut butter and jelly sandwiches to macaroni and cheese. One aggrieved spouse was heard to cry "But that's my supper!"

*May the buyer beware...*Dr.

Poellot has decided to give OR privileges to Dr. Rosenbaum. Dr. Poellot left for two weeks leave immediately after informing the OR staff.

Bob Quote : "I see...."

Despite Ms. Finlay's reputation for preventing snow, a light dusting did occur last night. Tracks were noted from Ms. Finlay's jeep to detour through a small snow bank. Said tracks appeared to show that Ms. Finlay had jumped up and down several times before proceeding into the hospital.

Understatement of the day (Ron from biomed speaking about Kinard) "That guy has a real attitude problem."

Lauren Adam's plans for a combined tea shop and antique store in South Carolina are moving forward. A location was found. Ms. Finlay has not yet decided whether to work in the store.
